

Extra Activities for Class 2

Science -Electricity

1. Can you draw pictures with labels, or make a list of some of the electrical items found in each room of your home?
2. Design a poster to show how we can stay safe around electrical items.

Computing

Practise your programming skills using Scratch Junior!

Can you remember how to create your own background, sprites (characters) and make the characters move?

<https://scratch.mit.edu/studios/63586/> Go to the 'create' tab next to the Scratch logo along the top of the website page to get started.

Here are some extra websites we have used in class. There are lots more online to explore too!

roythezebra.com

spellingframe.co.uk (separate games for Year 1 and Year 2)

ictgames.com

topmarks.co.uk

phonicsplay.co.uk (Phase 5 for Year 1, Phase 6 for Year 2) some free unsubscribe games are available
