

My winter recipe

First, gather cold, white, icy snowballs with colourful, stripy, warm gloves.

Next, add two crystal, clear cobwebs covered in icy water.

Softly sprinkle crumbled snow from a fresh snowy house,

And mix in frosty morning fog.

Season with hard hail from your garden.

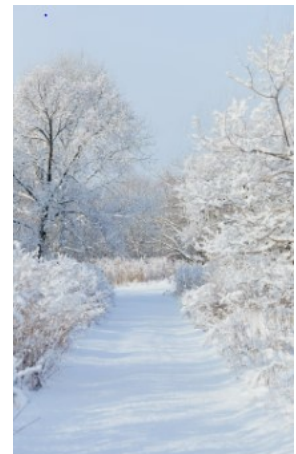

Add pinch of powdered marshmallow from a fresh hot chocolate.

Pour in crumbled mistletoe.

Then, steam carefully over a smoky, steamy, blistery fire.

Though trees stay naked all throughout winter,

Though winds are stormy and crazy,

Your winter will stay safe and snow loads !
