

## A recipe for winter

First, gather freezing, round snowballs with toasty, multi-coloured mittens.

Next, add a silky spider web covered in dew.

Gently sprinkle smooth, soft feathers from a barn owl's nest.

And swirl in smoky afternoon fog.

Season with logs from a fire place.

Add a large pinch of mistletoe.

Carefully pour in a hot chocolate with whipped cream.

Then warm gently over a flaring fire.

Though trees stand uncovered.

Though winds bluster and wave.

Your winter will rain with sparkling snow.
