

A Recipe for Winter

First, gather icy, frosty snowballs using super, soft mittens.
Next, add a spider web shining with glitter.
Sprinkling in rose-hips given with love,
Add a swirl of snow flakes,
Season with logs from nearby dead trees,
Add a bit of fir cone, a puff of frost.
Pour in melting marshmallows and hot chocolate drink
Then warm right through on blazing boughs.
Though cold winds blow
And nothing will grow.
Your winter will sparkle with glistening snow.
